Dear Grade 3 Families,

We would like to share some resources to help support your child's mental math fluency at home. While we do focus on building number sense, understanding, and foundational practice at school, additional practice at home can significantly enhance fluency. You will find a variety of games in our Family Fact Fluency Games folder attached to this message. We encourage short, frequent practice sessions throughout the week. As new games are introduced in the classroom, we will add them to this folder.

Thank you in advance for supporting your child’s fact fluency at home!

Family Fact Fluency Games

Warm wishes,
The Grade Three Teaching Team
