Multiplication Cover Up with 2s

Materials:

- Counters, in two different colors
- Two 10-sided dice

Instructions:

- Players A and B pick colors.
- Player A rolls the dice.
- Player A chooses one die to play and discards the other.
- Player A places the die in the expression on the game board and multiplies.
- Player A places a counter on a game board space that corresponds to the product.
- Players A and B alternate turns until one player gets four spaces in a row (across, down, or diagonally).

Example Turn:

- Player A rolls 5 and 6.
- Player A chooses the 6 and discards the 5.
- Player A places the 6 in the expression on the game board and multiplies (6 x 2).
- Player A covers a 12 on the game board with a counter.
- Play passes to Player B.

(OPTIONAL) Example Recording:

A student might record the example turn as 12 = 6 x 2, 12 = 2 x 6, 6 x 2 = 12, or 2 x 6 = 12.
